

digital facial steamer

#5206.01 DIGITAL FACIAL STEAMER

**THIS PRODUCT IS INTENDED FOR
COMMERCIAL/PROFESSIONAL USE ONLY**

IMPORTANT PLEASE READ THESE SAFETY INSTRUCTIONS

1. Read carefully and keep these instructions in a safe place.
2. Use this product only for its intended function and do not use attachments not recommended by the manufacturer.
3. Do not use outdoors.
4. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by person responsible for their safety.
5. Children should be supervised to ensure that they do not play with the appliance.
6. Periodically inspect the power cord for signs of damage. Keep the power cord away from heat sources.
7. Do not use an extension cord unless the cord complies with local electrical safety standards.
8. For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30mA is advisable in the electrical circuit supplying the salon. Ask your installer for advice.
9. Turn the power off and remove the plug when not in use or when cleaning.
10. When the appliance is used in the bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.
11. The appliance should be cleaned regularly to avoid the accumulation of grease and other residues.

CAUTION, HOT SURFACE

DO NOT fill the device with water while turned ON.
To refill with water, turn OFF and unplug the device and let cool for 15 min. Refill with water once it has cooled down.

WARNING

DO NOT use this appliance near bathtubs, showers, basins or other vessels containing water.

CAUTION

DO NOT operate any electrical item with a damaged power cord. If the supply cord is damaged, it must be replaced by the manufacturer, its agent or similarly qualified persons in order to avoid a hazard.

GET STARTED

The Digital Facial Steamer uses an electric heating element to boil the water in the reservoir jar in order to produce steam. The steam vapor is passed through to the nozzle where it can be directed onto the client's skin. The steamer has an Ozone function which passes the steam through an ultraviolet light*. This has an antibacterial action on the skin, which may be beneficial for acne and blemished skins. The stable round base on wheels allows it to be portable and move around the salon. The adjustable arm, allows to set the head of the steamer in the direction you choose.

Steaming prepares the skin for further treatment, and has the following benefits:

- Softens dead skin cells for better cleansing.
- Opens pores for deep cleaning.
- Loosens oil, dirt, and cosmetic residue.
- Helps detoxify the skin.
- Temporarily softens wrinkles.
- Improves blood circulation and skin hydration.
- Provides aromatherapy benefits to stimulate and relax the skin.

*Please note: The Ultraviolet light (UV Lamp) does not effect the human skin directly.
Use only for the activation of steam.

CONTRAINDICATIONS

The steamer should not be used where the following conditions are present:

- Recently waxed skin, or skin that has received any kind of heat treatment in the last 48 hours.
- Sunburned skin.
- Rosacea
- Highly vascular skins (skins with a lot of redness or broken capillaries).
- Asthmatic clients may experience breathing difficulties while under the steam/vapor. It may be necessary to elevate their head slightly and position the steam further away.
- Ozone has some reported potential for being a respiratory irritant. Use of the Ozone function should be minimized or eliminated altogether for clients who have a history of asthma or any respiratory problems.
- Ozone is highly flammable and must not be used around any flame or combustible substances.

DESCRIPTION	QUANTITY
 FACIAL STEAMER MAIN UNIT AND ADJUSTABLE SPRAY ARM	X1
 COLUMN	X1
 FIVE STAR STANDING LEG	X5
 FIVE STAR BASE	X1
 FIVE STAR FLAT BOARD	X1
 M10 SCREWS	X1
 WRENCH	X1
 ESSENTIAL OIL PAD	X2
 FIXING SLEEVE	X1

DIMENSIONS

Height: 110 cm
Width: 39 cm
Depth: 28 cm
Weight: 5.2kgs

- 1. ADJUSTABLE SPRAY ARM
- 2. FACIAL STEAMER MAIN UNIT
- 3. BASE WITH WHEELS

- 1. ADJUSTABLE SPRAY ARM
- 2. ESSENTIAL OIL PAD
- 3. ESSENTIAL OIL SUPPORT
- 4. ESSENTIAL OIL SLIDING COVER
- 5. STEAM OUTLET

- 1. WATER FILL POINT COVER
- 2. CONTROL PANEL
- 3. STEAM CHAMBER
- 4. WATER JAR
- 5. ELEMENT
- 6. FUSE BASE
- 7. POWER CORD

- 1. FIVE STAR FEET
- 2. COLUMN
- 3. FIVE STAR FEET BASE
- 4. FIVE STAR FEET FLAT BOARD
- 5. Ø10 GASKET
- 6. Ø10 SPRING
- 7. M10 BOLT
- 8. FIXING SLEEVE

GET STARTED : ASSEMBLY

1. Attach the five-leg base to the column.
2. Secure the fixing sleeve and the support board using M10 screws.
3. Place the main unit onto the column.
4. Ensure all parts are tightly secured before use.

1. Low Water Warning Indicator
2. Ozone Working Indicator
3. Ozone Power Switch
4. Decrease time
5. Power Indicator
6. Power Button
7. Warming/Working Indicator
8. Warming or Steam Button
9. Steam Working Indicator
10. Increase Time
11. Time Display Window
12. Energy Selection
13. Energy Display Window

OPERATION

1. ADJUSTING THE SPRAY ARM

- Unlock the adjustable spray arm by pulling the lock and rotating the arm to a horizontal position.

OPERATION

- Adjust the arm left-right (130 degrees) or forward-backward (60 degrees) to suit your needs.
- The spray head rotates 360 degrees for better coverage.

2. FILLING THE WATER JAR

- Open the water fill point cap/lid and pour water into the jar
- Ensure the water level is between the maximum and minimum marks.

3. ADDING ESSENTIAL OIL

- Open the sliding cover on the spray nozzle.
- Add 1-2 drops of essential oil onto the cotton pad.
- Replace the cotton pad when changing oils.

4. INSTALLING AND REMOVING THE WATER JAR

- Turn off the power before handling the water jar.
- To remove, hold the machine with one hand and rotate the jar clockwise.
- To install, align and rotate counterclockwise.

5. CONTROL PANEL OPERATIONS

- **Power On:** Plug in and press the power button.
- **Steam Activation:** Press the "Warming/Vapor" button; steam starts in about 6 minutes.
- **Time Setting:** Adjust time (1-30 min for steam, 1-90 min for warming).
- **Mist Intensity:** Choose low, medium, or high mist.
- **Ozone Function:** Activate ozone for additional benefits.
- **Water Level Monitoring:** The system will alert if water is too low or too high.

SAFETY PRECAUTIONS

- Ensure the water jar is properly secured before turning on the machine.
- Do not add essential oil while the steamer is running.
- Keep the spray nozzle 40 cm away from the client's face.
- Avoid overfilling the water jar.
- Do not adjust the spray arm forcefully.
- Always allow the water jar to cool before removing it.
- Use demineralised or distilled water to prevent mineral buildup on the element, which can lead to impurities and cause spitting.
- If any leakage occurs, turn off the power and check assembly.

CLEANING & CARE

Ensure that the facial steamer is cleaned to avoid the accumulation of grease and other residues.

1. Turn OFF and unplug the device before cleaning.
2. The external surfaces of the steamer may be cleaned with a soft cloth and soapy water or a mild non-abrasive surface cleaning agent.
3. The water jar should be emptied and refilled with distilled water after each use.
4. The water jar should be emptied and thoroughly cleaned with a white vinegar and water solution (1 part vinegar to 4 parts water) once a week. It is essential that the vinegar solution must be completely rinsed out of the jar before the steamer is used. If any residue remains the steamer may spit water when it is next used, posing an injury risk to the client.
5. If water has discoloured or left a residue inside the jar, the jar should be filled with the white vinegar and water solution and left to soak before washing out.
6. If the heating element needs cleaning, the jar filled with vinegar and water may be fitted to its usual position and left to soak overnight. This will remove any build-up of mineral scale from the element. Please ensure that all vinegar residue is completely removed from the element and the jar before using the steamer, as stated above.
7. When re-fitting the jar, ensure the jar is fitted firmly to the cradle. Failure to do so may cause the water to overflow when boiling, or interfere with the steam direction.

**CAUTION,
HOT SURFACE**

**DO NOT fill the device with water while turned ON.
To refill with water, turn OFF and unplug the device and let cool
for 15 min. Refill with water once it has cooled down.**
