#5675.01 SALON MIST - HAIR PROCESSOR

---

**THIS PRODUCT IS INTENDED FOR  
COMMERCIAL/PROFESSIONAL USE ONLY**

## IMPORTANT PLEASE READ THESE SAFETY INSTRUCTIONS

1. Read carefully and keep these instructions in a safe place.
2. Use this product only for its intended function and do not use attachments not recommended by the manufacturer.
3. Do not use outdoors.
4. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by person responsible for their safety.
5. Children should be supervised to ensure that they do not play with the appliance.
6. Periodically inspect the power cord for signs of damage. Keep the power cord away from heat sources.
7. Do not use an extension cord unless the cord complies with local electrical safety standards.
8. For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30mA is advisable in the electrical circuit supplying the salon. Ask your installer for advice.
9. Turn the power off and remove the plug when not in use or when cleaning.
10. When the appliance is used in the shampoo area, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.
11. The appliance should be cleaned regularly to avoid the accumulation of grease and other residues.

### CAUTION

**DO NOT operate any electrical item with a damaged power cord. If the supply cord is damaged, it must be replaced by the manufacturer, its agent or similarly qualified persons in order to avoid a hazard.**

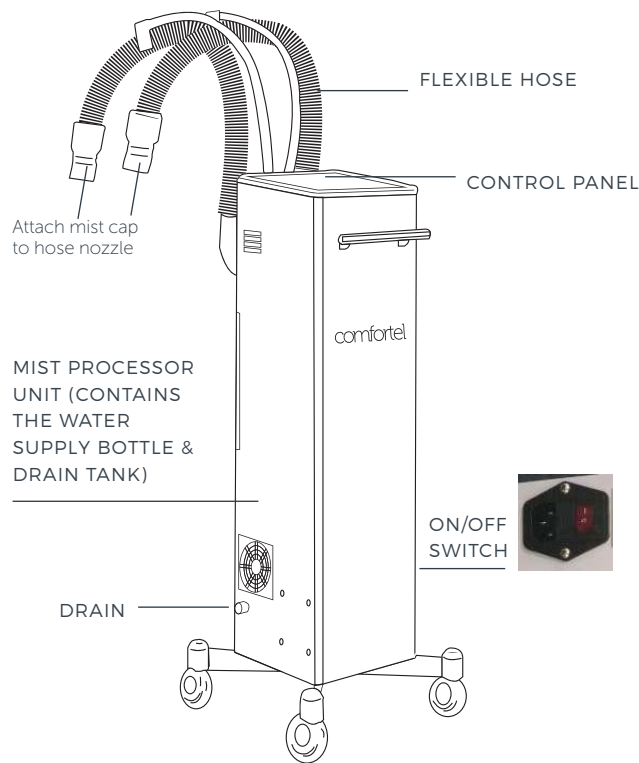

## SAFETY PRECAUTIONS

- **General Safety:** Only qualified salon professionals should operate this machine.
- **Electrical Safety:** Always disconnect the power plug before maintenance.
- **Water Precautions:** Only use demineralised or distilled water in the water supply bottle. Avoid spilling water on the unit.
- **Heat Warning:** The machine produces high temperatures. Do not touch internal components.
- **Ventilation:** Ensure proper airflow around the machine to prevent overheating.
- **Placement:** Keep the unit on a stable, level surface. Do not tilt or invert it.

The Salon Mist is a professional mist processor designed for salon treatments such as scalp care, hair conditioning, and colour processing. It provides a warm mist to enhance product absorption and treatment effectiveness.

- **Deep Hydration & Moisture Boost** – Revive dry, damaged, or chemically treated hair with ultra-fine steam that locks in moisture and enhances softness.
- **Enhanced Treatment Absorption** – Boost the effectiveness of hair masks, conditioning treatments, and colour applications with improved penetration into the hair shaft.
- **Frizz Reduction & Shine Enhancement** – The ultra-hydrating mist smooths the cuticle, reducing frizz and increasing natural shine.
- **Adjustable Heat & Timer Settings** – Customise the steaming experience to suit different hair types and treatments.
- **Ergonomic, Salon-Ready Design** – Sleek, professional, and easy to use with an adjustable hose and a durable water reservoir.
- **Ideal for All Hair Types** – Whether straight, curly, or textured, Salon Mist is designed to work with all hair types, delivering consistent, salon-quality results.

# GET STARTED : INSIDE THE BOX

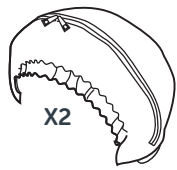

## MAIN COMPONENTS:

- Salon Mist Processor Unit: Contains the heating element and mist generator.
- Water-Supply Bottle: Holds water for mist generation. (not shown)
- Drain Tank: Collects excess water after use (not shown)
- Flexible Hose: Directs mist to the client's head.
- Control Panel: Allows for customisation of mist settings.

## PACKAGE INCLUDES

1. Salon Mist on Wheels with Dual Flexible Hoses
2. Mist Caps x 2

## DIMENSIONS

Height - 85 cm  
Width - 22 cm  
Depth - 25.5cm  
Length of Flexible Hose - 69-110cm  
Weight: 5.7kgs

# ASSEMBLY : ATTACH MIST HOSE

## CORRECT

Attach Flexible Hose facing up, so it produces an L Shape. If the hose is facing down, it is installed incorrectly

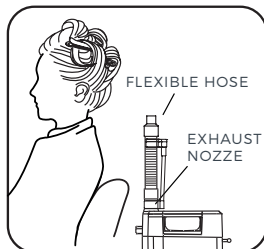

## INCORRECT

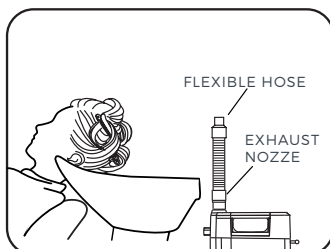

If you just need to use one mist hose, you can use the cover to seal the spray hole.

# SETUP & PREPARATION

1. **POSITIONING:** Place the unit behind the styling chair or shampoo basin.

SETUP FOR STYLING CHAIR

SETUP FOR SHAMPOO BASIN

## 2. FILLING THE WATER-SUPPLY BOTTLE:

- Remove the cap.
- Fill with demineralised water or distilled water.
- Securely close the cap and insert the bottle into the unit.

- Pour the clean water into clean water bottle, then invert the bottle into water reservoir jar
- Be sure to put the waste tube insert into the waste water bottle

WASTE WATER TUBE

FILTER

WASTE WATER BOTTLE

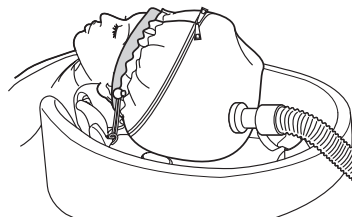

WATER RESERVOIR JAR

## 3. ATTACHING THE MIST CAP:

- Mist cap can be attached in Shampoo Basin position (A) or in Styling Chair position (B)
- Secure it around the client's head and ensure there are no gaps to prevent mist leakage
- Connect Flexible Hose securely onto mist cap

(A)

(B)

## SALON MIST MODES & SETTINGS

Salon Mist offers three specialised modes designed to enhance hair treatments with precision-controlled steam and cooling functions. Each mode ensures superior results for colouring, curls, and scalp or hair care.

### MODE C: COLOUR – EVEN COLOURING, MINIMAL FADING

For vibrant, long-lasting hair colour results.

- **Microscopic Mist Technology** – The ultra-fine mist fills the cap, infusing each hair strand with warmth to ensure even color absorption.
- **Cooling Seal Effect** – Locks in acid hair dye pigments, preventing fading and enhancing vibrancy.
- **Damage Control** – Gentle steam infuses to minimise stress on chemically treated hair.

**Recommended Settings:**

- Temperature: 45°C
- Mist Grade: 2
- Duration: 12 minutes
- Cooling Time: 5 minutes
- Use: Designed for acidic hair dye treatments.
- Mist Cap: Required

### MODE P: CURLS & DAMAGED HAIR – DEFINED WAVES & DEEP REPAIR

For perfectly shaped curls and restoring hair health.

- **Even Heat Distribution** – Softens hair evenly, promoting uniform curl formation.
- **Fast & Effective** – Creates beautiful, well-defined waves and curls in minimal time.
- **Deep Nourishment** – Helps restore moisture and elasticity to damaged hair.
- **Perm Enhancer** – Can be used to boost the effect of permanent wave treatments for longer-lasting curls.

**Recommended Settings:**

- Temperature: 50°C
- Mist Grade: 1
- Duration: 10 minutes
- Use: Suitable for heating-type permanent wave or curling agents
- Mist Cap: Required

### MODE T: SCALP & HAIR CARE – DEEP CLEANSING & HYDRATION

For a healthy scalp and deeply nourished hair.

- **Pore-Opening Action** – The warming effect dilates the follicle openings and hair cuticle and removes scalp debris.
- **Intensive Hydration** – Allows treatment particles to infuse deep into hair strands.
- **Cuticle Sealing** – Cooling phase closes the cuticle of the hair shaft, locking in moisture and essential nutrients.
- **Soothing Experience** – Provides a gentle, relaxing treatment with minimal burden on the scalp.

**Recommended Settings:**

- Temperature: 55°C
- Mist Grade: 3
- Duration: 15 minutes
- Cooling Time: 2 minutes
- Use: Ideal for warming the scalp before/after applying a cleansing or treatment agent.
- Mist Cap: Required

**OZONE FUNCTION:** The Salon Mist is equipped with an ozone function designed to deeply purify the scalp and enhance hair treatments. Ozone has natural antibacterial properties that help eliminate buildup, excess oil, and impurities, creating a healthier environment for hair growth. It also works to open the hair cuticle, allowing moisture and treatments to penetrate more effectively, leaving hair stronger, shinier, and revitalised. Ideal for deep conditioning and scalp care, the ozone feature ensures a fresh, clean feel while promoting overall hair health.

# OPERATION

- **Power On:** Plug in the unit and switch it on.
- **Select Mode:** Press the desired mode button on the control panel.
- **Adjust Settings:** Modify time, temperature, and mist level as needed.
- **Preheating:** The unit will warm up before misting begins.
- **Start Treatment:** Press the Start button to begin mist generation.
- **Monitoring:** Observe the client for comfort and adjust settings if necessary.
- **Completion:** The unit will automatically cool down before shutting off. Remember to remove the mist cap and drain excess water.

TROUBLESHOOTING	
NO MIST OUTPUT:	Ensure the water-supply bottle is filled and correctly inserted.
NO MIST OUTPUT/ WATER LEAKAGE:	Check that all caps and hoses are securely fastened.
OVERHEATING:	Ensure proper ventilation and that the unit is not blocked.

# CLEANING & CARE

Ensure that the Salon Mist is cleaned to avoid the accumulation of grease and other residues.

1. Turn OFF and unplug the device before cleaning.
2. The external surfaces of the Salon Mist may be cleaned with a soft cloth and soapy water or a mild non-abrasive surface cleaning agent.
3. Check waste water bottle and empty out daily. Wash water bottle with soap and water if it has any residue..

CAUTION,  
HOT SURFACE

DO NOT fill the device with water while turned ON.  
To refill with water, turn OFF and unplug the device and let cool for 15 min. Refill with water once it has cooled down.
